

Growth Record

Longitudinal weight, height, and head-circumference measurements with CDC/WHO percentiles. Use this record to share growth context with specialists or schools.

Rowan Palm

DOB 2026-08-18 · 0m · female

MRN

1362056729722881

No growth measurements on file.

Percentiles use CDC reference data for ages e 24 months and WHO reference for ages 0–24 months. Percentile bars on the chart screen include alerts when a child crosses two or more major lines between visits.
